

The Riverine offers you the freedom to live independently and the comfort of knowing your needs will be looked after in retirement.

Welcome to the Riverine

At The Riverine, we are committed to enabling you to live your life surrounded by comfort, security, companionship and independence. Located in west Napanee, The Riverine is situated on beautifully landscaped grounds, which slope gently down to the banks of the Napanee River. In keeping with its natural surroundings, The Riverine has blended the beauty of natural wood beams with a chalet-style design to create a welcoming environment. The hospital and medical centre, churches, shopping and park areas are all near by.

Call us at **(613) 354-8188** to arrange a personal tour and change how you view the future.

This membership Stamp of Approval ensures that our facility meets the highest professional residential care standards in the province.

Superb Accommodations

The Riverine has two styles of retirement living: the Retirement Living Level and the Independent Living Level. Residents have the flexibility to choose the type of accommodation best suited to their needs. Each offers spacious living quarters designed with the total contentment of the resident in mind. Every room is fully carpeted and ready for the resident's furniture and personal belongings. A 3-piece ensuite bath features safety rails and an emergency call bell system. Resident's rooms and all common areas are climate controlled to ensure maximum comfort. Individually controlled radiant heating provides a soothing warmth in our resident's rooms. See *Levels of Care* on the back cover for a description of both styles of our retirement living.

Retirement...Your Way

The Riverine offers a pleasant atmosphere for entertaining family and friends. Visitors are always welcome. Attractively decorated lounge areas and a sunroom coupled with beautifully landscaped grounds and patio areas make for an enjoyable visit.

Leisure Time

Residents can relax by the fireplace, entertain guests in the sunroom, or spend time with friends watching the large screen television. There are many cozy private areas available. Comfortable chairs and tables in the common areas provide a place for cards, bingo, games and conversation. Our program director plans activities in an effort to meet individual needs. Shopping tours and outings are scheduled regularly. The monthly resident council meeting ensures input and satisfaction.

Elegant Dining

At The Riverine, priority is placed on providing exceptional culinary services. For Retirement Living residents, meals are provided three times a day, seven days a week. Meals can be enjoyed in our wonderful water view dining area, or, on occasion, in the private dining room with family or friends. Menus are planned by our Food Service Supervisor and special diets are catered to. Self-serve refreshments are available around the clock.

Common Amenities

At The Riverine, we are committed to your happiness and well-being. For your comfort and convenience we provide:

- Solariums and common areas
- Private family dining room with kitchenette
- Games area and pool table

- Telephone jacks and Cable TV outlets in each resident's room

Our Commitment

The Riverine is privately owned and managed by the Freeman family. They have over 40 years experience operating Crown Ridge Health Care Services Inc., and are dedicated to making your new home an elegant, enjoyable and secure place to live.

Levels of Care

Retirement Living Level: The main level provides residents with the finest in retirement living. Residents can choose either private rooms, deluxe private rooms, or suites, all with ensuite baths. They will appreciate that 24-hour resident supervision is available along with all meals and snacks, daily housekeeping and a planned recreational program.

Independent Living Level: The second floor of The Riverine is for residents who prefer to live independently in a secure building. On this level we have one, two and three room suites available, all with ensuite baths, dining areas and kitchenettes. Residents feel secure knowing they can call for help through a call bell system equipped in all rooms for communication with staff if an emergency arises.
